The Centre Fiers & Forts works for the protection of children in Morocco. They do so by welcoming children living in situations of trauma or social distress and bringing them into a safe and caring environment.

The CFF has made it their mission to love and support these children. They wish to encourage strength in the young, so that they may be able to build themselves with respect for their dignity and integrity. The CFF's approach emboldens each child to become independent, fulfilled young adults who are actors in their own lives, and who are able to integrate economically and socially within Morocco.

Louis Devereux, owner of Riad Alena and subsequent manager of the Artist Residency has partnered with Centre Fiers & Forts for the last year by personally providing weekly rollablading lessons to the children.

He views the Riad Alena Artist Residency as an opportunity to offer a creative initiative to supporting the children, whilst also providing artists the time and space to make work within the lively and charming landscape of Marrakech.

20% of the proceeds from the exhibition will go to Centre Fiers & Forts.
